This book can be download · soal dan jawaban fisika sma kelas xii bob foster right Fisika I.SAN FRANCISCO, Sept 24 (Reuters) - The major U.S. stock indexes closed sharply lower on Thursday after the Federal Reserve cut its key interest rate for the first time in a decade, raising the possibility of a rate hike next month and signaling a potentially sharp drop in the market. The Fed used its interest rate-setting meeting to announce a quarter-point cut in its benchmark lending rate to 1.25 percent, adding that the U.S. central bank will continue to keep short-term rates at record-low levels through mid-2015. The Dow Jones industrial average.DJI fell 274.74 points, or 2.07 percent, to 11,854.01, the S&P 500.SPX lost 35.29 points, or 2.55 percent, to 1,357.46 and the Nasdaq Composite.IXIC dropped 79.74 points, or 2.35 percent, to 2,872.49. Among stocks, shares of Apple dipped 3.3 percent after the company forecast slower iPhone sales this quarter and cut its dividend. Homebuilder KB Home fell 6.6 percent after the homebuilder forecast disappointing revenue and profit this quarter. The Fed's rate-hike comments late Wednesday "sent the financial markets reeling and left nearly everything that could be moved lower in the first hour of trading in Asia on Thursday," wrote Howard Silverblatt, senior index analyst at S&P Dow Jones Indices. "For some of the big names on the Dow that are heavily weighted toward technology and financials, this could be a test of their ability to absorb a deeper sell-off," Silverblatt wrote. "Short-term rates are expected to be volatile next year and bearish bets are huge again." Some investors still think the S&P 500 should approach the record high of 1,565.00 it set in December 2007. But a Reuters poll of strategists found that a slightly higher percentage now expect the S&P to fall back down to the 1,265 level. The S&P needs to close above
